

MIGUEL LOZANO

Senior Frontend Engineer

migueldotl.github.io

Email: miguel.d.lozano@gmail.com

LinkedIn: linkedin.com/in/migueldotl

GitHub: github.com/migueldotl

Skills

Languages: HTML5, CSS3, JavaScript (ES5/ES6), TypeScript, Python, PHP, Ruby, SASS/SCSS

Frameworks/Libraries: React/Redux, Angular, Next.js, Lit/Web Components, Tailwind CSS, FastAPI, Jest, Vitest, jQuery, Ruby on Rails

AI Tooling: Claude Code (skills, subagents, hooks, MCP servers, prompt workflows), GitHub Copilot

A/B Testing & Optimization Tools: Adobe Target, Google Optimize, Monetate

Misc: Agile & Lean methodologies, Test and Design Driven Development, Git, Design Tokens, Storybook, Linux/Bash, Webpack, Vite, Docker, Sketch, Zeplin, Figma

Spoken Languages: Fluent in Spanish and German; Some French; Learning Japanese

Other Skills: Adobe Photoshop, Illustrator, Premiere, Ableton Live, Autodesk AutoCAD, Davinci Resolve

Recent Projects

Maestro — Situational awareness for AI-assisted development. Surfaces live tool-call feeds, per-agent resource meters, and port conflict detection across active Claude Code sessions. React/TypeScript, Tailwind CSS, FastAPI, psutil, WebSocket.

Branch Beacon — A lightweight React/Web Component that keeps your current git branch visible in the browser as a sanity check. Automatically styled to the host project's design tokens, and color-coding that alerts you to protected branches. Published to npm with Storybook docs and backend references for Express, FastAPI, Flask, and Go.

Pattern Archive — Video production pipeline with a Storybook-driven React UI, AI-assisted script generation driven by a structured prompt guide, and end-to-end automation from script to publish. Each iteration informed by real use. React, FastAPI, Claude Code, Whisper, FFmpeg, YouTube Data API.

Experience

Manic Made – Frontend Engineer

Fully Remote

Nov. 2023-Present

- Building component-driven UIs with TypeScript, React, StoryBook
- Architecting design systems with shared component libraries, design tokens, theming, and WCAG AA accessibility
- Full-stack development with React/Tailwind and Python/FastAPI
- Building real-time features with WebSocket streaming
- Leveraging Claude Code (skills, subagents, hooks, MCP) and prompt workflows to accelerate concept-to-prototype delivery

FMN Ventures – Full Stack Developer/Project Manager

- Re-architected core PHP/JavaScript application, modernizing the codebase and significantly reducing recurring bugs.
- Led full-stack development across projects, delivering feature enhancements aligned with business priorities.
- Managed project timelines and development progress for multiple initiatives, ensuring on-time releases.

Fully Remote
Mar 2025-Oct.2025

BlueCross BlueShield of North Carolina – Sr. Frontend Developer

- Collaborated with design team to deliver LiteHouse, a reusable component library built with Web Components, Lit, and Storybook for UI consistency and expediting development across internal sites.
- Led exploration and validated approaches for building key components, ensuring feasibility/alignment with design team goals.
- Refactored LiteHouse codebase, abstracting shared logic to improve maintainability and code consistency.
- Authored Markdown documentation and usage guidance for LiteHouse components; maintained unit tests and code coverage.
- Leveraged GitHub Copilot to meet critical year-end release milestones.

Fully Remote
Sept. 2024-Feb. 2025

Cielo Clayworks – Web Developer (Part-Time/Contract)

- Consulting with client to meet business requirements
- Designed Website architecture and layout
- Maintaining and updating content

Ft. Lauderdale, FL
May 2020-Present

Multiplica US – Remote Web Developer (Part-Time/Contract)

- Resumed previous roles

Remote
Feb. 2021-Aug. 2021

Multiplica US – Web Developer (Full-Time)

- Direct DOM manipulation using vanilla JavaScript and jQuery
- Built Experiences using Monetate, Google Optimize, Adobe Target
- Optimized client websites
- Built A/B testing experiences for clients
- Built digital marketing campaigns and product merchandising for client promotional sales
- Built Marketing and eCommerce websites in WordPress

Boca Raton, FL
Aug. 2018-Mar. 2020

T R I M Agency – Web Developer / Consultant

- Built pixel perfect, responsive web apps based on Sketch/Zeplin design
- Custom Marketing sites and MVP web apps in WordPress and Angular
- Maintained RESTful APIs in Ruby on Rails
- Consulted with Product Owners on weekly sprints
- Practiced Agile and Lean methodologies

Ft. Lauderdale, FL
Jan. 2017-Jun. 2018

Aereon Marine, Inc.– Web Developer (Contract)

- Built Company Website
- Junior Developer for Proprietary Software
- Wrote node.js scripts for client/lead data aggregation

Ft. Lauderdale, FL
Oct. 2016-Apr. 2022

Wyncode Academy – Teaching Assistant (Part-time)

- Assisting students with homework and class projects

Miami, FL
Nov. 2016-Jan. 2017

Gutierrez & Lozano Architects – Draftsman (AutoCAD)

- Primarily used AutoDesk AutoCAD for drafting
- Surveyed job sites in order to draft plans
- Managed local network and office computers/plotters/printers

Ft. Lauderdale, FL
